

Landscape Pesticide/Herbicide Spray Policy

The Office of Pesticide Programs of the United States Environmental Protection Agency has stated: “Where possible, persons who potentially are sensitive, such as pregnant women, infants, and children, should avoid any unnecessary pesticide exposure.”

The chemical, Glyphosate, or any other known carcinogenic chemicals or materials are not used on KCA properties.

In order to assist in the safety of Kehalani Homeowners and guests, a list of homeowners that wish to be notified when pesticide and/or herbicide spraying occurs will be maintained and notification will be emailed to each.

Interested homeowners need to contact the Site Manager via email, myap@kehalani.org, to be added to the notification list.

Adopted by the KCA Board 08/15/2017 and revised 09/17/2019
