The Wailuku-Kahului Project District 3 (Wailuku), hereinafter referred to as "Kehalani", is a master planned community that has been developed over the last 30+ years. The Kehalani roadways were designed, approved, and built to the applicable County standards as they were intended to be dedicated to the County. For various reasons, the roads were not immediately dedicated. Many years have passed since the roads were constructed, and not all roads meet the current County roadway standards, as the standards have changed over the last 30 years. The attached document titled KEHALANI MAUKA / MAKAI ROADWAYS; COUNTY COUNCIL-DEDICATION PUNCHLIST, lists nonconformities that are proposed to remain at dedication.

As the roadway lots are not to County standards, the Council has the authority to accept the roadways per Maui County Code Sections 3.44.015(F.4.) and 18.40.010.

We believe it is in the public interest to accept dedication of the roadways for the following reasons:

1. This dedication would fulfill the expectations of and benefit the thousands of residents that live in the approximately 2000 dwellings located within Kehalani.
2. These roadways also provide access to DOE's Pu'u Kukui Elementary School, the Wailuku Elementary School Park, and the County's bus stop and routes for the broader Maui community.

The Department of Public Works reviewed the documents and found them to be satisfactory. The documents have also been reviewed and approved by Corporation Counsel who has prepared the resolution for these roadway lots.

Approval and acceptance of the resolution by the County Council is respectfully requested. We would appreciate receiving notification of the acceptance of this Resolution to further process the documents for recordation.

Thank you for your attention to this matter. Should you have any questions, please contact me at Ext. 7845.

Sincerely,

JORDAN MOLINA  
Director of Public Works

COMMENT	COUNTY COUNCIL APPROVAL LIST
<b>DSA</b>	
Wheelchair ramps need to be shown to be in compliance with ADA standards. Some ramps may have had wheelchair ramp inspections done with the adjoining development. Some ramps are older and likely did not have ramp inspections. You need to work with our department to determine how ramp concerns should be addressed. It is possible that ramp inspections will need to be done for those that were not inspected. Non-conforming ramps may need to be repaired	Existing curb ramps constructed based on previously approved construction plans and to the applicable standards at that time.
Deeds	Pending County Council approval (MCC 3.44.015.F.4), then Finance and Mayor sign warranty deeds.
<b>Engineering Division Traffic Section</b>	
Crosswalk markings should match standard "bar" type markings.	County accept crosswalks at Poniu Street/Olomea Street and Halemalu Place/Olomea Street striped to match the previously approved construction plans.
<b>Highways Division</b>	
Street trees uplifting sidewalks throughout and islands in Mauka. Kehalani to remove and replace attached pictured trees.	Removed encroaching branches. County accept other tree locations as is.
Various Sidewalk Repair Comments	Sidewalks have been repaired multiple times in the past. County accept sidewalks/walkways as is.
<b>Wastewater Reclamation Division</b>	
A CCTV of the sewer improvements from the Honoapiilani Highway (SMH KA20XK1000), down Kehalani Makai Parkway, to Kamole Street, to Olomea Street, then to Waiale Road (SMH KA20XG4500). Once we receive the requested CCTV, we will review and advise if any remedial action would be required to address the found issues. If the CCTV reveals any structural or installation deficiencies, we may require additional CCTV for the sewer improvements within other proposed roadways to be dedicated to verify their condition and installation	County accept as is since sewer system installed almost 30 years ago and built based on previously approved construction plans and to the applicable standards at that time. RCFC/Kehalani HOA will not replace any items resulting from the CCTV.
<p>Arnold Abe response on 05/17/2021:</p> <p>A) At all installed sewer manholes within the accepted roadways, be sure the concrete donuts are in good condition (no cracks) - replace as necessary;</p> <p>B) On makai portion, all sewer manholes shall be properly grouted under the covers' ring; and,</p> <p>C) There are cracks on internal rings that need to be repaired for SMHs KA20XK0800, 0600 and 0300.</p> <p>Please have the developer/contractor contact our inspector, Martin Jenson (757-2067), when they will address all of the requested items above and below (per 4/15/21 email).</p>	County accept as is since sewer system installed almost 30 years ago and built based on previously approved construction plans and to the applicable standards at that time.
